Week's War Is Favorable To Allies

London, May 1.—(Via Reuters Ottawa Agency)—As the details of Monday's fighting are received, confirming the fact that it was the worst day the enemy has experienced since the opening of the great offensive, the newspapers, hitherto reticent in view of the fluctuations of the battle, now comment on the operations in a tone of confidence, they have not hitherto displayed.

As the Times says: "Of all the violent combats witnessed in the past few weeks, we know of none which is a more hopeful augury for the allies than this 10-hour German failure."

DEFENSIVE VICTORY.

It is pointed out that the public is apt to reckon victory in terms of offensive success, but a defensive victory like that on Monday may contribute equally toward the ultimate object of conquest, viz., destruction of the enemy's fighting strength. From this viewpoint, the Germans, despite their spectacular successes, can be regarded as

having had the worst of the balance of nearly six weeks' fighting, for it must not be forgotten that they suffered a series of disastrous losses, of which Monday's was the bloodiest of the past fortnight. Indeed apart from the capture of Kemmel, it has been one complete failure, including four separate defeats in pitched battles, viz.: on the Labosse Canal, the Belgian front, at Villers-Bretonneux and now on the Billieu-Ypres front. The culminating effect of this has been immensely to increase the confidence of the Anglo-French troops, whom the correspondents describe as now feeling that they have got the measure of the new enemy divisions.

Other strokes undoubtedly will come before the German reserves are exhausted, but confidence is felt that whenever the Germans try they will find the allies ready.

The British alone, between Zillebeke and Lathilly, defeated five German divisions, but French valor is also rated in the highest terms.

The Work of The "Red Triangle"

When Premier Borden learned that the Y.M.C.A. were to undertake a great campaign for the raising of funds to maintain the work in England and France with Canadian soldiers, he wrote to the Y.M.C.A. officials as follows:—
"On more than one occasion it has been my privilege to see something of the work of the Y.M.C.A. in providing comfort and entertainment for our gallant troops, and to learn from these men themselves just how highly they value what is done for them. Canadian at home must be grateful for the existence of such an efficient and sympathetic organization for this purpose, and I hope and believe that they will respond generously to the appeal for support which is to be made for the Red Triangle Fund. (Sgd) R. L. Borden."

The Red Triangle of the Y.M.C.A. is now operating in all the Allied Armies, Great Britain, Australia, South Africa, New Zealand, India, Canada and the United States are financing their own work and helping in Egypt, France, Mesopotamia and Italy. Not less than twenty-five million dollars has been raised since the outbreak of the war. The value of the work is recognized by all Allied Governments and has their official endorsement.

In a recent campaign for the Red Triangle with the American armies over 25,000,000 dollars was raised to supply the needs of the men in the front lines, recreation, social, religious and other needs of the men to be conducted by the Red Triangle. There is a Red Triangle man and hut wherever the fighting goes on day or night. It is the nearest approach to home for the lonely boys "over there." In fact the lonely Y.M.C.A. men go right into trenches with the dough boys with their packs of rough-outfit, wool games and refreshments not to mention the stocks of stationery to enable the boys to keep in touch with home.

Writing to E. G. Phillips, Secretary of the Military Y.M.C.A. in the Victoria Park barracks at Calgary, one of the men who has done his bit over there says:—
Dear Mr. Phillips—Having served

with the 48th Battalion overseas for a period of two years, I feel that I could express my appreciation of the good work done by the Y.M.C.A., behind the lines, and more especially of the advanced position on the front line where every effort is made to give comfort and attention to the troops as far as permitted by the circumstances.

The Y.M.C.A. man is looked upon as brother and friend, and the little hut with the Red Triangle, is the nearest approach to home for the lonely Canadian on the Western battlefield.

It is the general opinion of the boys out there in the line, that if any cause is worth supporting, it is the Y.M.C.A. The men on the front would be ungrateful if it were not for the uplift given by the "Y."

If you appreciate the work of the men that hold the line at Ypres, then send them to maintain the industries that inspire them to such deeds. Yours sincerely, J. Doherty, late 9th Battalion, C.E.F.

Unable to get back to the front line because of wounds, many of these heroes having come right into the heart of the fray with the Red Triangle, and in this manner sold behind these comrades in the front line. Captain Carl Bak Pearson, M.C., was one of the men who was able to get back to France in this way. In addition these men understand what is involved in no uncertain way. When the battle for Hill 70 was being waged last year several Y.M.C.A. dugouts were destroyed by shelling. These dugouts are in close proximity to the front line trenches and line the most largely used paths into the trenches as a sort of refuge. The men coming and going are always sure of getting some thing to eat and something to drink at these places. Many of them are named by Army Chaplains who work hand in hand with the Y.M.C.A. men. A story is told of one soldier who after seeing a dugout destroyed for the second time by a shell, said to the "Y" secretary, "I would not stay in that place for \$10,000." "Neither way!" replied the "Y" man as he proceeded to gather together the remains and continued to serve the Alberta boys in his zone.

Lord Rhondda Cables: "We Cannot Achieve Victory Without Food."

"Canada Food Board,
Ottawa"

"In these stern days it is inspiring to learn that Canada is tackling the food problem with redoubled energy. The terrific pressure on our military front makes it all the more imperative that those behind the line should strain every nerve to defeat the enemy's avowed object of destroying the British Empire."

"Germany hoped first to starve the Old Country by the submarine campaign and then to smash her land forces. She has failed to starve us and she will fail to smash us but we cannot achieve victory without food. There never was a time when it was more needed."

"The Canadian farmer and the Canadian farmhand now have the opportunity to make an effective reply to the enemy's present onslaughts by bonding their undivided energies to the increased production of those food supplies for which we depend to such vital extent upon your great Dominion."

(Signed) "RHONDDA"

Londra, April 10th

The Prime Minister of Canada, in a call to Greater Food Production, says: "The crisis is grave and urgent beyond possibility of exaggeration."

Our Allies are depending upon Canada to produce this year more cereals—especially Spring Wheat—and more meat—especially Pork.

The food shortage will inevitably continue for years after the war—yet this continent the nearest source of supply for the 200,000,000 persons in Europe who will be clamoring for food.

Measures have been taken and plans have been formulated, which, on the authority of the Director of Agricultural Labor, will provide help needed for harvest.

City and town people who cannot go on the farms are helping to feed themselves by growing their own vegetables, so that the farmers may grow more food for export.

The food crisis calls for the utmost effort by all the people of Canada, because as Lord Rhondda says, Food is essential to Victory.

A Truck for the Farmer

FARM equipment which will effect a time and labor-saving, and therefore a money-saving, must be carefully considered by every good farmer now-a-days.

The farm wagon, which for years was the most useful of all farm equipment, is now being replaced on the best farms by a sturdy, dependable motor truck. The truck will haul any farm product—fruit, grain, vegetables, stock, fertilizer, or wood—around the farm, or to the town or city many miles distant, in half the time, and at a much lower cost.

The Ford One-Ton truck is a rapid, economical and very serviceable means of transport. One of these on your farm will save you weeks of time in a single season and will enable you to pass through a crisis of labor shortage with less difficulty.

The Ford truck is supplied as a chassis only. This permits you to select any of the many body styles especially designed for the Ford truck and already on the market. Thus you can mount the one which suits your individual requirements.

Price \$750 f.o.b. Ford, Ont.

Fight with Food

A Call to the Whole Dominion for the Utmost
Effort to Produce Food for our
Soldiers and Allies

OUR ALLIES are desperately short of food. In the midst of plenty ourselves we must face the stern reality of England on shorter rations than she has been for over a hundred years, and France with only three days' food reserve. Even from their present small supplies they are saving Italy from collapse through hunger.

Since shipping must be concentrated on the shortest routes, Canada and the United States must continue to be practically the only source of supply. Canada must provide wheat and meat in increasing quantities to meet a situation that imperils the issues of the war.

Men who can be spared for work on the farms must serve in this way. Those who are obliged to remain in the city or town can at least raise vegetables in their gardens or on vacant lots.

Every effort will be made to see that labor is forthcoming to harvest the maximum crops that farmers can produce.

An increased spring acreage in wheat and other grain is vitally needed.

Stock raisers are asked to provide the greatest possible production of meat, especially pork.

Starvation is threatening our Allies. Everyone in Canada must fight by doing his or her utmost to produce and to conserve food.

Members of Central Union church congregation assembled at the church on Tuesday evening and presented the retiring pastor, Rev. J. Fulton, with a purse of \$50.00.

Mr. Fulton left on Thursday evening for Calgary, enroute to Ontario.

With rounding his and an air of great importance, the small boy at a Sunday school imparted the happy news to his teacher. "The happy news," he said.

"What makes you think that?" said the teacher.

"Dad said so," explained the small boy.

"I was standing in the street with him yesterday when a funeral passed, and when did see it he said: 'Poor devil, he's dead.'"

Wholesale dealers in flour and feed will be brought under the license system of the Canada Food Board by June 1st. The fee for a wholesaler's license will be \$20 when the value sold does not exceed \$100,000 a year, with an additional \$10 for every additional \$50,000 a year sold, or fraction thereof. The fee for a flour and feed broker's license will be \$25.

At a meeting of the congregation of Central Union church on Sunday night last, the proposition as set forth by the Baptists was considered, and before deciding definitely on the plan of union with the non-conformists, it was decided to submit the proposition first forth by the Baptists and the Presbyterians and Methodists to the superintendents of the respective missions, requesting that they come to Blainmore at an early date and be able to confer with the local committee. The local committee comprises Messrs. J. F. Hunter, F. M. Pinkney, F. M. Thompson, C. B. Pearson, L. P. Hays, J. M. Lean, W. F. Bartlett, Dr. O. Ellis, Dr. H. A. McDonald and Rev. W. T. Young.

Rev. James Fulton, who has been retired from the Central Union church for about eleven months and who is a resident of Blainmore, has recently, his last jump awarded the degree of bachelor of arts.

The Lake of the Woods Milling Co. have withdrawn all their travellers, and the offer has been made that many of them who are willing to work on farms during the next four months the company will make the difference between their regular salaries and the wages which they may earn on such farm work.

A little girl sat really in an arm chair in the local hotel, busily engaged with needle and thread. A traveller happened along and asked what she was doing. "I'm making a wash-towel," was the reply. "Oh," said the traveller, "and will you make one for me?" "No I won't," replied Jean, "you're not a soldier!"

Sixty six errors lost their lives when the steamship City of Athens, bound from New York for Savannah, was rammed and sunk by a French cruiser off the Delaware coast on Wednesday morning. The City of Athens was about 2,600 tons and commanded by Capt. Forward, one of the best known Atlantic master mariners. Capt. Forward was rescued.

A well-attended meeting took place at the Oddfellows' hall last night in the interest of the Military Y.M.C.A. The chair was occupied by Mr. F. M. Pinkney, chairman of the local committee. Very interesting addresses were delivered by Capt. Hunt, of the Frank Military Hospital and Sub-Lieut. R. C. Hall, R.N.V.R. of H.M.S. "Hooke" and district organizer, Mr. A. Newcombe, of Calgary. The address of Lieut. Hall was particularly interesting, relating to the navy, the activities of which are very little known to the colonials. Capt. Hunt spoke at length of the operations of the Military Y.M.C.A. in England and right up to the front-line trenches in France, and knew of no organization so deserving of support of the people of the nation as the Military Y.M.C.A. Mr. Newcombe stated that the universal endorsement of the Military Y.M.C.A. was a sufficient guarantee that the annual asked for from the individual subscribers of the Hamilton of Canada (\$2,250,000) would be more than subscribed.

Second Age—Wants and I just gave him broken China in return.
Third Age—Starts to get it.
Fourth Age—Decides to be satisfied with half of it.
Fifth Age—Becomes still more moderate.
Sixth Age—Wants to possess a six feet by two feet strip of it.
Seventh Age—Gets that strip.
